DIRECTOR OF SUPERVISION:
RABBI REUVEN STEIN

To Whom it May Concern,

Thank you so much for working with us on providing beverages to the Kosher consumer. Kosher is a Hebrew word that literally translates to mean "fit". It refers to the food or drink being fit for use for those that follow Jewish dietary laws. The Kosher caterer that you are using can walk you through the process of setting up a Kosher bar. At your event there will be a Mashgiach (Kosher Supervisor) from the AKC that will check to ensure that all items are Kosher.

To know that a particular beverage is Kosher it needs to have a recommended Kosher symbol on the label, be listed on either the [CRC](#) or [Star K](#) list as an approved item or be approved by the AKC. All items that will be served need to be sealed in the original packaging when the Mashgiach arrives. All wine which is served needs to have the word Mevushal on the bottle as well as a recommended Kosher symbol. Any fruit or garnishes that will be used need to be Kosher certified (i.e. olives, cherries) or cut using Kosher equipment (i.e. limes, lemons). The Kosher caterer might be able to provide you with cut fruit. All bartending equipment including but not limited to jiggers, shakers, spoons, pourers and strainers must be brand new in their original packaging or be provided by the Kosher caterer. Regular glasses and ice can be used. Please reach out to the caterer that you are working with or myself for any questions that might arise. I hope that you have a successful event that has your client coming back for more.

L'Chaim!
